2. What CASEORA Already Does Best

- **End-to-end case management:** registration → hearings → diary → documents → orders → disposal.
- **Case Timeline:** gives advocates a complete chronological view of the case.
- **AI What Happened?:** converts case history into a simple chronological summary.
- **AI What Next?:** highlights pending steps and the next recorded action.
- **Exhibit + exemption management:** specialized workflow features that are not the main focus of the competing apps.
- **Team management:** admin advocate, associate advocate and clerk roles with permissions.

3. Features CASEORA Should Add

Priority	Recommended Feature	Purpose
HIGH	CASEORA AI Legal Assistant	Case-aware legal Q&A using the case's records and documents.
HIGH	AI Document Review	Find missing information, inconsistencies and important provisions.
HIGH	AI Legal Drafting	Generate drafts such as bail, exemption, notices, replies and affidavits.
HIGH	Prepare for Hearing	Create a hearing brief: history, orders, documents, arguments and pending work.
MEDIUM	Legal Research	Acts, sections and judgments with AI-assisted search.
MEDIUM	Old Law ↔ New Law	Useful comparison such as IPC/CrPC/IEA with BNS/BNSS/BSA.
MEDIUM	Case Health Score	Show overdue tasks, missing documents and upcoming hearings at a glance.

4. Recommended Development Roadmap

Version	Focus
V1 – Core	Case registration, parties, court details, hearings, diary, tasks, documents, exhibits, orders, timeline, disposal, search, notes
V2 – AI	AI legal assistant, case analysis, document review, drafting, order analysis, argument preparation and hearing preparation
V3 – Research	Acts, judgments, legal search, law comparison, bookmarks, multilingual legal content and a larger legal knowledge base.

5. Final Product Positioning

Do not make CASEORA a copy of AI Lawyer or Court Book. Position it as an **AI-Powered Case Management & Legal Intelligence Platform for Advocates.**

CASEORA = Case Management + Case Diary + Hearing/Task Management + Documents/Exhibits + Timeline + AI Case Intelligence + AI Drafting + Court Preparation + Legal Research.

Important: AI should assist with organization and document understanding. Important legal and factual conclusions should be verified against original court records and applicable law.
